## HELPING YOU TO SHINE A LIGHT ON YOUR TALENT

**People Risk Solutions** offers experienced and practical help to make the most of one of the biggest costs to any business: people. The firm was founded in 2006 by Andrew Pullman.

We offer straight-forward Interim and Outsourced HR solutions, to in-depth Management Effectiveness training & development, SMCR regulatory support and Outplacement or Career Transition.

Our team of over 30 highly qualified and experienced associates allows us to work across a wide range of sectors, including our primary focus on financial and professional services. We also operate across Europe, in the US and in Asia as required, and have an office in New York.

We work with SMEs in need of short term or regular HR support, or larger financial institutions in need of sophisticated solutions, and a whole range of businesses in between.

For an initial discussion please contact
